(54) Title: A METHOD AND SYSTEM FOR VERIFYING DOCUMENTS

(57) Abstract: A method and system for verifying the authenticity documents using an international computer network. Documents are processed by a central repository (100) and verification information supporting their authenticity generated. Paper documents are scanned into electronic image data and uploaded to a server (101) together with verification information where they can be viewed by persons using client computers (301, 302) on an international computer network such as the Internet (400).
